Top ten food advertisers ..... July 103

Aerosols

Aerosol foods: unfulfilled promise. Dec. 67
Case-making spray covers old print (e) ..... May *109
Now—Glass and aluminum aerosols ..... Aug. *27

Air conditioning

Cooling, dehumidifying air licks bulk-flour problem ..... Aug. *61
Dehumidifier—chemical dehumidifier speeds sugar processing. G. C. Henderson ..... May *56
Pump system conditions air for less (e) ..... May *118

Aluminum

Aluminum cans: no runaway yet. Sept. 91
Aluminum cans to get first big trial ..... Jan. 47
Aluminum vs. tinplate cold war heats up ..... Aug. *26
Box reduces breakages of cartoned eggs (e) ..... June *130
Canning machinery and supplies convention views latest aluminum containers ..... Feb. *24
Extrusion press turns out 120 cans/min. (e) ..... Mar. *129
Foil cook-ins for frozen meats ... May *24
Foil tray—rigid, institutional-size container for frozen entrees .... June *95
Food can roundup ..... Oct. *33
Part I — Aluminum vs. tin showdown
Part II — Can-making moves ahead
Insulation—Aluminum foil ceiling insulation (e) ..... June *133
Now—Glass and aluminum aerosols ..... Aug. *27
Pitting sped by presence of copper (A) ..... Apr. 109

American Management Assn.—Packaging as integral part of business operations gets AMA scrutiny ..... May *46

Antibiotics

Improve quality of ice-stored herring (A) ..... May 89
Treatment of poultry raises yeast population (A) ..... Jan. *87
Yeast—Inhibiting antibiotics aid contamination studies (A) ..... May 89

Antioxidants

BHA or BHT in lard extends life of frozen pastry (A) ..... June 89
Esters good substrates for antioxidant checks (A) ..... July 87
Tocopherols—Antioxidant properties (A) ..... Apr. 109

Apples

Storage—Apples with firm flesh keep best (A) ..... Feb. 109

Atomic energy—Radiation of foods research reopened by AEC and Army. Richard Smith (tables) .. May 39

Automation

Air automates gum process. George Meer, Jr. ..... Aug. *70
Boning machine up poultry yield and quality. A. V. Gemmill (chart) ..... Jan. *65
"Brain" gives jump on business figures at R. T. French. Desmond Stone ..... Apr. *40
Bulk automation pays big at Nabisco flour plant ..... Apr. *71
Computer perfects automatic batching ..... Sept. *56
Conveyor-routing system (e) ..... Jan. *132
Cooling — Flexible, automated cooling ups baker's capacity 35% (chart) ..... June *63
High automation featured in Glasgow bakery's new system .. Oct. *95
Mechanized egg handling ..... Oct. *89
New system automates production control (e) ..... Oct. 138
Offers valve automation (e) ..... Dec. *108
One-operator line makes 450 cans a minute (e) ..... Jan. *127
Refines process and CIP control. John V. Ziemba ..... July *44
Robot flake-ice maker (e) ..... Jan. *136
Weighing makes big strides—report. J. V. Ziemba (charts) .. Mar. *93-111

Awards—Folding Paper Box Assn.: annual competition winners—16 awards ..... Apr. *61

B

Baby food

American producers race for overseas markets ..... Apr. 54
Bumper sales ahead ..... Feb. 58
Heinz revamps cereal package .... Jan. *24
Libby retrenches on baby foods .. Aug. 97
Protein — Beech-Nut adds high-protein meat dinners ..... Apr. *27

Bacteria

Antibiotics plus radiation inhibit bacteria in stored bacon (A) .. Apr. 105
Bacteria found in oysters resemble those in fish (A) ..... July 87
Bone-taint in meat has bacterial origin (A) ..... Dec. 78
Frozen food off-flavor not due to bacteria (A) ..... Aug. 80
Frozens foster bacteria (A) ..... June 93
Kit for bacteria checks (e) ..... Jan. *127
Poultry bacteria building up resistance to antibiotics (A) ..... June 89

Bags

Bag maker-filler feeds film liner from reel (e) ..... Dec. *107
Bag moisture-proofs dehydrated syrups ..... Nov. *29
Bagging system slashes costs .... June *73
Fish-in-bags hook plus sales. Ray Bloomberg ..... June *99
Continuous flow system makes 120 plastic bags/min (e) ..... June *121
Frozen clams debut in poly bags. Nov. *28
Kraft paper bags for iced poultry. Feb. 87
Multiwall bag with plastic handle for 25 lbs. of salt ..... Mar. *26
Single sheet bags for hams ..... June *24
Waste disposal bags—Liners for 30-gal. cans ..... Feb. 91

Bakeries and Baking

Antioxidants in lard extend life of frozen pastry (A) ..... June 89
Bakers exploit the seasons ..... Nov. 78
Biscuit packing speeded by bundling system ..... Apr. 87
Bun packing—"No hands" from pan to wrap ..... June *59
Cake mix market all mixed up ... May 101
Cookie toppings—Pump-meter rig quick-changes flavor-colors ... Apr. *83
Cooling — Flexible, automated cooling ups baker's capacity 35% (chart) ..... June *63
Dough extender ..... Dec. 110
Dough production up with panel-mounted switches. Minos Asproyerakas ..... May *63
Freezing and defrosting effect on doughnuts (A) ..... Sept. 111
Frozen rolls keep well at 0F. or below (A) ..... July 90
High automation featured in Glasgow bakery's new system .. Oct. *95
Instant dough development eliminates up to 5 hr of processing time (e) ..... Dec. 98
Latest dough divider forms 12,000 pieces/hr. (e) ..... Sept. 141
Lays quality on the line. John V. Ziemba (chart) ..... Oct. *44
Liquid shortening ups cake quality, cuts costs (e) ..... Apr. *117
Muffin bakery mechanization boosts volume and quality, too. F. P. Mueller ..... June *64
Nabisco's automated bulk flour handling pays big ..... Apr. *71
Patty shells from Maggie Rudkin. Oct. *24
Pie-forming machine makes specialties at 120/min. Robert Bernick ..... Feb. *76
'Print power' puts small firm ahead ..... Oct. *113

Batch Operations

Automatic batching unit (e) .... Sept. *148
Batch-time controller (e) ..... Apr. 117
Computer perfects automatic batching ..... Sept. *56
Disintegrator — Beltless disintegrator for batch or continuous operation (e) ..... Jan. *131
Weigher streamlines brewer's corn-grit flow from bins to kettles. Fromm & Wood (chart) .. Feb. *80

Beans

Green beans—Birds Eye markets luxury green beans ..... Jan. *25
Green beans—Paddle wheel unit solves feeding beans to French-style slicers ..... June *70

Beer

Busch foams record brew ..... Feb. 58
Carling zooms to the top with expert market guidance. R. E. Allison (charts) ..... Mar. *42
Chlorides, pasteurization, diacetyl tests simplified (A) ..... Sept. 114
Resin treatment cuts chill haze (A) ..... Feb. 105

Belting

Ice cream handling better with wide stainless belt ..... May *64
Sanitized conveyor belt (e) ..... June 121

Beverages

Apricot breakfast cocktail drink —Bulk drums for concentrate ups production ..... Feb. *79
Instant soft drink mix called Twist ..... May *25
Sterile fruit-milk drinks (P) .... Aug. 80
Sunkist's frozen fruit punches win chain buyers on MR record. C. R. Havighorst ..... May *96

Bins

Control for multi-bin service (e). Feb. *125
Discharge unit designed for low-headroom areas (e) ..... Feb. *119
Electronic portable-bin system pays big at Nabisco flour plant. Apr. *71
New storage bin unloader turns tables on solids (A) ..... Sept. 114

Blenders

Economical ribbon blenders (e) .. Feb. *125
Special-action blender (e) ..... Aug. *114

Boilers—Compact packaged boiler (e) ..... July *110

Bottling

Alkali, delvak, for bottlewashers (e) ..... Jan. 136
Beer—Carling's MR-based bottle choice zooms to the top. R. E. Allison (charts) ..... Mar. *42
Bottle-sorting table (e) ..... Jan. *131
"Honeycomb" bottle handler. H. M. Hurlimann ..... Mar. *74
Multi-benefit plastic bottles ..... Aug. *107
New dairy filler handles all bottle sizes (e) ..... Oct. 144
Spots uncrowned bottles ..... Apr. 91
Swirl bottles for point-of-purchase appeal ..... June *25

Boxes

Aluminum box reduces breakage of cartoned eggs (e) ..... June *130

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Index to Vol. 32, January, 1960, to December, 1960

Bag-in-box has pour spout.....May *24
Box gages—Set can get accurate "specs" for box-making.....Apr. *91
Calk-seal carton accelerates high-speed automatic packaging (e).Feb. *117
"Fast-pickup" design — Factors that styled Carnation's new box for Albers corn muffin mix....Jan. *48
Folding Paper Box Assn. annual competition winners—16 awards.Apr. *61
"Funnel" carton for frozens.....Feb. *25
Moisture-proof carton eliminates inner liner, trims costs.....Jan. *51
Plastic box protects—shows off product .....Dec. *70
Pull-tab shipping case for canneries .....June *25
Tray-pack cartons benefit retailer, consumer .....Jan. *24
Wirebound box for turkeys.....Sept. *30

Bread

Higher extraction, soya improve bread protein (A).....Aug. 80
Lean bread improved with soy flour, lecithin bromate (A).....Feb. 110
Market new line of premium breads .....Nov. *29

Brewing

Beer's chill haze cut by new resin treatment (A) .....Feb. 105
Latest handlers automate flow. A. T. Gaudreau .....Sept. *68
New brewers-distillers hose (e)...Feb. 130
Weigher streamlines corn-grit flow from bins to kettles. Fromm & Wood (chart) .....Feb. *80

Brine—Steel and plastic briners (e) July *112

C

Candy—see Confectionery

Canning and Preserving

Aluminum cans to get first big trial .....Jan. 47
Aluminum containers attract attention at canning machinery and supplies convention.....Feb. *24
Canning—Its progress and its future—report (charts & tables) Jan. *95-116
Canning looks to a great future. Carlos Campbell .....Jan. *96
Sharp focus on canners' market .....Jan. 97
Salient strides in can packaging .....Jan. *101
New processes push out the old.Jan. *110
Progress in QC and preservation .....Jan. *114
Can-seam tester (e).....June *124
Corn canner's modernization boosts output, quality, profit. Browne & Pociali (chart).....Mar. *66
Equipment show in Miami reveals 4 major developments, 17 important innovations .....Mar. *84
Food can roundup.....Oct. *33
Part I—Aluminum vs. tin showdown
Part II — Can-making moves ahead
French canneries favor hydrostatic sterilizers. F. K. Lawler (charts) .....Mar. *64
Jam in cans.....Feb. *25
Jams in flip-lid cans for institutional markets .....June *24
Mushrooms—Big savings for little packer through canning-line ingenuity. Stanley Magiera.....Feb. *68
NCA Committee finds faulty retorting prevalent .....Aug. 50
Nutritional values of canned vs. fresh fruits and vegetables (table) .....Jan. 116
1,000-a-minute can closer (e)...Aug. 114
Outlook—Canning looks to great future. Carlos Campbell.....Jan. *95
Radiation plus heat cuts sterilizing doses (A)..... .....June 93
Radiation preservation called nontoxic (A) .....Mar. 113
Radiation-preservation research revived by Army and AEC. Richard Smith (tables).....May 39
Safe-edge, "sanitary" can, called "Bogner," introduced at canning show .....Feb. *25
Sardine canners' program hits top-quality bull's-eye. A. V. Gemmill .....Mar. *78

Carotene — Concentrate is natural coloring agent .....Feb. 129
Cartons—Staples cartons 'on bias' (e) .....July 111
Caseinates—Striking new caseinate facility produces milk protein. A. V. Gemmill (chart).....May *75

Centrifuges

Centrifuge cost down, quality up for Florida citrus processors. F. K. Lawler (charts & tables).Apr. *72
5-gal. steel pails centrifugally lined (e) .....Apr. *109
German plant's advanced corn processing uses centrifuges. F. K. Lawler (chart) .....May *58

Cereals

Modern process revamps ancient food .....Aug. *78
Quick cooking cereal (P).....July 80

Cheese

Apparatus makes cheese continuously (P) .....Mar. *113
Changes in cheddar cheese during curing (A) .....Dec. 78
Tear-string pouch eases opening..Feb. *24
Dressing mix design in abstract..Oct. *24

Chemicals

Adsorbents up fat-processing efficiency (e) (charts).....Oct. 131
'Autolysis' improves tenderness of beef (A) .....Dec. 77
Dipping fruits in chemical solutions extend shelf life (A).....May 86
Easy-to-use descaler .....Oct. 147
Evaluation stabilizing effect of glutamate (A) .....Aug. 79
Metryoglobin formation in beef may be key to color in freeze-dried meats (A) (charts) .....Dec. 77
Microbiological assay for thiamine evaluated (A) .....Nov. 89
Potato sprout inhibitor (e).....Oct. 136

Cherries — Cluster-cutter powered through V-belts .....May *63

Chinese Foods—Chinese foods get uniform family label..... Mar. *25

Chocolate

Coatings—Studies indicate optimum viscosities (A)..... ....Jan. 87
Detecting foreign fats in cocoa products (A) .....June 89
Dutch processor-retailer achieves outstanding results. F. K. Lawler .....Apr. *76
Hexagonal shipping-display containers for chocolates holds trapezoid-shaped packages ....June *25
Protein content best measure of milk solids (A).....Mar. 117
Syrup — Chocolate-flavored syrup in glass jars .....Mar. *25

Chromatography

Detection reagent in pushbutton aerosols (e) .....Jan. 140
Gas chromatographic study of fruit ripening (A).....Nov. 90
Gas chromatography is valuable check on efficiency of vacuum deodorizers (A (chart).....July 87
GC affords new knowledge of fish (A) .....Feb. 105
GC detects fat adulterants (A)...Feb. 110
Multiple - strip chromatography unit for desktop (e).....Feb. *120
Paper chromatography used for sugars in ice cream (A).....Nov. 90

Cleaning

Air-powered vac cleaner (e)....Jan. 127
Bottlewashing—Delvak, new alkali for bottlewashers (e).....Jan. 136
Drains cut cleaning time do better job, too .....Dec. *52
Hose reels boost efficiency, sanitation .....June 69
Improvements in spray cleaning technique .....Aug. 79
Long-reach vac cleaner (e).....July *118
New cleaning compound (e).....Jan. 140
Steam cleaner (e).....May *113
Sweeper—Simple power sweeper...Apr. *119
"Wave" cleaner at low price (e)..May *114

Clothing—Uniforms—Laundry costs cut by switch to linen supply service .....Feb. *88

Coatings

Case-masking aerosol spray covers old print (e).....May *109
Epoxies fix old—build new.....July *80
Non-slip floor coating.....Oct. 146
Silicone-ceramic coatings .....Aug. 121
Spray coatings (e).....Sept. 151

Coatings, Food

Chocolate studies indicate optimum coating viscosities (A)....Jan. 87

Coconut — Freeze-drying extends shelf-life of coconut (P).....July 87

Coffee

Coffee's chlorogenic acid a quality index (A).....Nov. 89
Fines separated, pelletized to aid coffee extraction (P).....Sept. 112
Three-man processing line boosts output, quality. John L. Walter & John V. Ziemba.....Aug. *46

Colors

Color code identifies piping, hazards .....Dec. 52
Egg yolk color affected by housing for hens (A).....May 85
Metryoglobin formation in beef may be key to color in freeze-dried meats (A) (chart) .....Dec. 77
Natural coloring agent—carotene concentrate (e) .....Feb. 129
Why A-rays discolor salt. Ladenburg & Bloomberg.....June *55

Compressors

Compressor redesign offers many benefits (e) .....Oct. *137
Preassembled compressor (e).....Sept. *136

Communications

Electronic longhand system speeds vital QC data. F. R. Pohndorff (chart) .....Feb. *97
Teletypewriter order-processing system (TOPS) lets district offices wire orders directly to distribution center. J. V. Ziemba (chart) .....May *44
Zip orders by tube, licks lag. Phil Hirsch .....Aug. *71

Compressors

New vertical single-stage compressor (e) .....Feb. *126
Portable air compressor (e).....Apr. *121

Computers—see Electronics

Concentration

Citrus juices—Improved process uses inert gas (P).....Feb. 106
Plate evaporator—Revolutionary British unit concentrates orange juice, other liquids. F. K. Lawler (charts) .....Mar. *60

Confectionery

Action on quality and sanitation (chart) .....Sept. 124
Frappes—Preparation and uses in candy (A) .....Apr. 106
Freezing candies for storage brings maker plus-profit. L. Hoey .....Apr. *85
New mint candies.....Jan. *25
Schrafft's new candies.....Jan. *25

Construction

Glass blocks cut maintenance costs .....May 63
Survey pins plant-outlay costs. F. B. Thomas (charts & tables).May 54
Wall construction blocks rain seepage .....Apr. *96

Consumption—Most consumers prefer fortified milk drinks (A).....Dec. 78

Containers

Aluminum box reduces breakage of eggs (e).....June *130
Aluminum cans to get first big trial .....Jan. 47
Aluminum containers draw attention at canning machinery and supplies convention.....Feb. *24
Bag-in-box has pour spout.....May *24
Better container inspection. J. V. Ziemba (charts) .....Nov. *63
Calk-seal carton for high-speed packaging eliminates inner-bags, overwraps (e) .....Feb. *117
Can—Safe-edge, "Bogner" can introduced at canning show.....Feb. *25
Carry-home carton for Arnold cookies .....Dec. *25
Cures out-of-stock 'bug' .....Sept. *78
Double-bonus can lowers costs, ups sales appeal .....Nov. *46
Flip-top cartons for ice cream...Dec. *24
Foil tray—Rigid institutional-size container for frozen entrees....June *95
"Funnel" carton for frozens.....Feb. *25
Gallon milk carton debuts at exposition .....Dec. *24
Hexagonal carton holds trapezoid-shaped packages of chocolates..June *25
Introduce wrapless carton.....Sept. *31
Milk carton — Tetra paper container aseptically formed, filled, sealed. C. R. Havighorst (charts) .....Mar. *48
New units automate wrapless cartoning (e) .....Sept. *133
Poly-coated milk cartons .....Dec. *42
Pull-tab shipping case for canneries .....June *25
Styrene-foam container keeps dinners hot or frozen.....Jan. *25
Surer fill-height control. John V. Ziemba .....Sept. *99
Switch frozen meats to die-cut cartons .....Nov. *28
Test mashed potatoes in economy can .....Dec. *24
Vapor-proof carton sparks frozen candy sales .....Sept. *103
Versatile packages star at AMA show .....May *47

* Illustrated. (A) Abstract. (e) Equipment. (ed) Editorial. (P) Patents.

Index to Vol. 32, January, 1960, to December, 1960

Continuous Processing
Cheese—Apparatus makes cheese continuously (P) ..... Mar. *113
Frankfurters—Swift's revolutionary new continuous frankfurter process. John V. Ziemba (charts) ..... May *50
Honey dehydrated by continuous process (A) ..... Sept. 112
How vibrators aid processing. Frederick Marich (charts) ..... Oct. 62

Controls
Automatic bucket control for multi-bin service (e) ..... Feb. *125
Compact cascade control (e) ..... Nov. *129
Light speeds container inspection (e) ..... Jan. *135
Maintenance check, using test panel, keeps control units healthy. Gergen & Ziemba ..... Feb. *101
Processors eye latest controls ..... Nov. *37
Temp-pressure controller (e) ..... Apr. *123
Weight selecting-foolproofed—FE weighing report. John V. Ziemba ..... Mar. 97

Conveyors
Automatic chiller sets pace in advanced Armour plant ..... Sept. *126
Automatically controlled conveyor-routing system (e) ..... Jan. *132
Collapsible conveyor belt (e) ..... Nov. *122
Continuous vertical conveyor (e) ..... Oct. *132
Cost-cutting power unit (e) ..... Dec. *97
Delrin flat-top conveyor is tough ..... May *67
Dock-conveyor system preloads trucks fast. J. L. Mischou ..... Dec. *80
Electronic tip-tray conveyor system speeds orders (e) ..... Mar. *124
Floor-to-floor conveyors (e) ..... June *129
Handles diverse loads (e) ..... Sept. *144
Latest handlers automate flow. A. T. Gaudreau ..... Oct. *68
Moves materials on air ..... Aug. *114
Mylar conveyor belt has many advantages (e) ..... Nov. 130
Newest handling success story. John V. Ziemba ..... Aug. *66
Plastic conveyor belt (e) ..... July 109
Plastic sprockets stop wear ..... Apr. *88
Portable conveyor (e) ..... Apr. *120
Pushbutton 'scope conveyor speeds case handling (e) ..... Aug. *112
Sanitized conveyor belt (e) ..... June 121
Screw conveyor has sanitary features (e) ..... Apr. *124
Separates air, product in vacuum conveying (e) ..... Nov. *124
Synchronized cooling conveyor-system ups baker's capacity 35% (chart) ..... June *63

Cooking—New cooker-extruder cuts power costs (e) ..... Sept. *143

Cooling
Cooling, dehumidifying air licks bulk-flour problem ..... Aug. *61
Loading pattern cools citrus fruit in transit (A) ..... Dec. 77

Corn
Canner's modernization boosts output, quality, profit. Browne & Pocialik (chart) ..... Mar. *66
Chip process improves quality (P) ..... Mar. 117
German high-performance corn-processing plant uses wet-milling. F. K. Lawler (chart) ..... May *58
Zip orders by tube, licks lag. Phil Hirsch ..... Aug. *71

Corrosion
Built-in protection from clean-up water. Minos Asproyerakas ..... May *63
One-coat corrosion control (e) ..... Jan. 140
Plastic pipes vs. corrosion ..... Jan. *71

Costs
Efficient handling cuts vacuum-cooling costs ..... Sept. *72
Keeps prices competitive with 'bagged'-cost controls ..... Aug. *82
Modernization, accenting cost-control, spurs canner's profit. Browne & Pocialik (chart) ..... Mar. *66
Survey pins plant-outlay costs. F. B. Thomas (charts & tables) ..... May 54

Cream—see Milk

Cutter
Potato slicer—Drawer catches debris ..... Jan. *71
Speeds film wraps (e) ..... Jan. *135

D

Dairy Products
Borden's market plans for '60's shaped by consumers. T. C. Taylor (chart & table) ..... Feb. *48
Cottage cheese creaming studied (A) ..... Sept. 111
Cream standardization made simple. Tyler Hicks ..... Apr. *37
Milk protein—New caseinate operation produces top quality milk protein. A. V. Gemmill (chart) ..... May *75

Dairy Equipment—23 Highlights of dairy show ..... Dec. *46

Defense — Foodstocks for fall-out shelters. J. G. Woodroof ..... Aug. *38

Dehumidifiers—see Air conditioning

Dehydration
Alloy solves dryer problem (chart) ..... Jan. 71
Film pouch for dehydrates ..... Oct. *25
Fruits—Vacuum chamber aids resulfuring. J. A. Kitson (chart) ..... June *69
Honey dehydrated by continuous process (A) ..... Sept. 112
Improved dryer design solves tough problem ..... Oct. 60
Improvements in foam-mat drying result from perforated plates (A) ..... Aug. *79
Milk—New method produces instant dry milk without rewetting (P) ..... June *89
New findings on dehydration ..... July 79
Soups—Knorr's quality Swiss soups prepared for world sale—report. F. K. Lawler (chart) ..... Feb. *37-41, 45

Deodorizing — "Laundering" spent carbon for re-use. Gene Syverson and Rudy Timmer ..... Sept. *107

Desiccation—see Dehydration

Desserts
Cold water dessert powder ..... Oct. 99
Junket adds two more desserts ..... Apr. *27
Diet—Dietary fats in human nutrition is vital concern of food processors (A) (chart) ..... Nov. 89
Disintegrator—Beltless disintegrator for batch or continuous operation (e) ..... Jan. *131
Dryers — New spray-drying nozzle (e) ..... Nov. *116
Dust—For better dust control (e) ..... July 109

E

Eggs
Aluminum container reduces breakage of cartoned eggs (e) ..... June *130
High-speed grading-packing line (A) ..... Jan. *87
Mechanized egg handling ..... Oct. *89
Ultrasonics plays big role in egg freezing process (P) ..... Feb. 105
Yolk color affected by housing for hens (A) ..... May 85

Electronics
"Brain" gives jump on business figures at R. T. French. Desmond Stone ..... Apr. *40
Can-flow controls curb bottlenecks. E. R. Dudley ..... Dec. *73
Computer perfects automatic batching ..... Sept. *56
Computer speeds container R & D. G. B. Pratt (chart) ..... Nov. *93
Electronic longhand system speeds vital QC data. F. R. Pohndorff (chart) ..... Feb. *97
Foolproof photo-electric system detects insufficient vacuum in glass jars ..... Dec. *51
L-band linac explained ..... Jan. 80
Particle-size counter clinches quality control. Berg & Kovac (charts) ..... May *40
Radiation costs cut by L-band linac, new ray source. Huber & Klein (tables) ..... Jan. *78
Smoking time cut 90% with two-chamber unit. A. V. Gemmill ..... Apr. *79
Unique static drive offers instant starting (e) ..... Dec. *107
Univac gives hog packer vital quality-yield facts in a flash! John V. Ziemba ..... June *49

Emulsifiers
All-vegetable emulsifier (e) ..... Sept. 151
14 new units at packers show ..... Nov. *86

Engineering
Brewery's palletized case-handling system smooths flow. John V. Ziemba (charts) ..... May *72
Just what is job of process engineer? R. J. Piette ..... July *39
Protein—Striking new caseinate operation produces top quality milk protein. A. V. Gemmill (chart) ..... May *75
Swift engineers basic advances in continuous frankfurter production. John V. Ziemba (charts) ..... May *50

Enzymes
Cacao fermentation involves important enzyme activity (A) ..... May 86
Flavor restored to processed foods by enzymes ..... Mar. *83
Pre-kill injection tenderizing revealed by Swift ..... July 81

Equipment
Bag-making system turns out 120 plastic bags/min. (e) ..... June *121
Calibrated mop bucket (e) ..... Oct. *143
Canning equipment show in Miami reveals 4 major developments, 17 important innovations ..... Mar. *84
Can-seam tester (e) ..... June *124
